

HyFlex® 11-800 Glove

Big Comfort For Handling Small Parts.

Exceptional fit, feel and dexterity.

The original foam HyFlex® 11-800 glove gives your workers the combination of grip, dexterity, comfort and safety they need to perform at their highest level. The ergonomic fit makes it more likely to be worn while the grip in light oil helps increase productivity—all of which increases worker compliance.

The best of design and function.

The HyFlex® 11-800 glove is designed to give your workers the best combination of comfort and protection. Our original foam coating is resistant to snags and abrasions, and provides excellent grip in light oil. The foam nitrile, which molds to your hands, together with the ergonomically designed liner provides the most comfortable glove with the highest level of dexterity.

Outstanding Product Attributes & Benefits

Ergonomic form-fitting liner design

- Glove molds naturally to the hand, minimizing fatigue
- Exceptional comfort and fit increases worker acceptance and safety compliance
- Extensive size range protects more workers (6-11)

Ansell's original foam nitrile coating

- ◆ ● Channels oil away from glove surface for sure grip in light oil
- ◆ ● Exceptional, unmatched comfort for workers
- Provides good grip in dry environments
- Helps deliver precision, dexterity and flexibility when assembling and handling small parts

Durable and Machine Launderable

- Recycled use—perfect for light oil and industrial applications where gloves soil quickly
- Minimal shrinkage, excellent recovery extends wear life

Industries

- Aerospace
