

Surface Probe

Model 8695A

- Range: -50 °C to +260 °C
- Time constant 3 second
- Accuracy: $\pm(0.3 \text{ °C} + 0.5\%)$
- 1/4" diameter at tip

The 8695A is designed to measure temperatures surfaces. The stainless steel sheath is 1/8" diameter with a 1/4" diameter flat tip. This probe has 1.5 ft coil cord that can be extended to 3 ft.
